

## Manufacturers declaration for Gas Supply Equipment

---

Components manufactured by KRAISS & FRIZ e.K. comply with the valid and recognised international standards and are designed and manufactured in accordance with good engineering practice applicable in Germany.

These include, among others:

- Use of materials in the gas-wetted area that meet the requirements specific to the type of gas.
- Special cleaning and degreasing of the gas-wetted parts, corresponding to the use for high-pressure oxygen and ultra-pure gases.
- Components for high-pressure oxygen are designed and manufactured according to their requirements. They have successfully passed the adiabatic test against oxygen pressure surges at a recognised testing centre.
- All products manufactured by KRAISS & FRIZ e.K. are subjected to a leak and function test.
- KRAISS & FRIZ e.K. has a certified quality management system according to ISO 9001 and ISO 13485.
